

Intelligence Research and Development Council

IR&DC 83-3451  
29 July 1983

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Deputy Director, Intelligence Community Staff

FROM:   
Executive Secretary

25X1

SUBJECT: Publication of IR&DC Contact Directory

1. The Council has agreed that it would be beneficial to publish a Technology Contact Directory which lists the names, mailing addresses, and phone numbers of Community personnel who are engaged in similar technical work. The personnel to be listed will be the points of contact within their organizations for certain designated technologies. The intent of this publication is to facilitate interaction between R&D personnel and encourage an ongoing exchange of technical knowledge.

25X1

2. Subsequently, a data call was issued and Council members have responded with listings of personnel who may be contacted within their organizations to discuss the indicated technologies (Attachment A). We are in the process of publication, but now have been advised by the Printing Plant that due to regulation  that your approval must be secured for the listing of CIA personnel in such a Community directory (Attachment B). For your information, the Directory will be classified  and the only Agency personnel who will be listed will be those in ORD, who have been designated technology contact points by the DDS&T. The ORD contact points will, however, service as required the other areas of the Agency.
